# Agrotechnology & Food Innovations Ltd.

- **INNOVATION: The Problem Solution People...**
  - from consumer to primary producer
  - from fundamental research to business development
  - intensive public-private cooperation
  - effective transfer of knowledge to industry and society

# Agrotechnology & Food Innovations Ltd.

- Agrisystems and Environment
- Quality in Chains
- Biobased Products
- Food Quality

# Biobased Products

- Development of:
  - industrial processing
  - industrial products
- Based on:
  - renewable plant and animal resources

# Research Programmes Biobased Products:

- Pulp and paper technology
- Starch and cellulose chemistry
- Agrofibres
- Bio-energy and biomass processing
- Bioplastics
- Polymer additives
- Sustainable materials
- Coatings systems
- Encapsulation and controlled release
- Performance chemicals
- Fermentation products and processes
- "Custom-designed" polypeptides and proteins
